

# NURTURE EARTH SEED CATALOGUE 2017

Our seeds come from nutrient dense plants grown in mineral rich soil. All our seeds are grown using biological methods and organic principles. We do not use pesticides, fungicides and herbicides instead we work with nature, making carbon-rich compost and natural-based fertilisers to enhance our soil and encourage a healthy soil food web. Heirloom. Non GMO. Glyphosate Free. Thank you for taking the time to look at our seed collection.
